#### Luna Innovations Incorporated Reports Third Quarter 2014 Financial Results

Product and licensing revenues increased 47% compared to third quarter of 2013; operating loss improved 45% compared to third quarter of 2013

(ROANOKE, VA, November 5, 2014) – Luna Innovations Incorporated (NASDAQ: LUNA) today announced its financial results for the third quarter and nine months ended September 30, 2014.

Total revenues for the third quarter of 2014 increased 14%, to \$5.4 million, compared to \$4.7 million for the third quarter of 2013. The increase in total revenues was driven by growth in product and licensing revenues, which grew by 47%, primarily from growth in sales of the company's ODiSI products for fiber optic sensing. Gross profit improved to \$2.1 million, or 39% of total revenues, for the third quarter of 2014 from \$1.7 million, or 36% of total revenues, for the third quarter of 2013. Total operating expense for the third quarter of 2014 also improved by \$0.2 million, or 6%, compared to the third quarter of 2013. With increased revenues and lower operating expenses, the company's operating loss improved 45% to \$0.7 million versus an operating loss of \$1.3 million in the third quarter of 2013.

Discontinued operations primarily includes the after-tax gain recognized on the company's sale of its medical shape sensing business in January 2014 as well as the income and expenses associated with those activities prior to the sale. In the third quarter of 2013, these activities contributed \$0.7 million in pre-tax income, which did not recur in the third quarter of 2014. After recognition of discontinued operations and income taxes, the company reported a net loss attributable to common stockholders of \$0.8 million, or \$0.05 per diluted common share, for the third quarter of 2014, compared to a net loss of \$0.6 million, or \$0.04 per diluted common share, in the same quarter last year. Adjusted EBITDA, a non-GAAP measure, which is earnings before interest, taxes, and non-cash expenses of share-based compensation, depreciation and amortization, improved to \$(0.3) million for the third quarter of 2014, as compared to \$(0.7) million for the third quarter of 2013.

Total revenues grew 11%, to \$15.1 million, for the first nine months of 2014 compared to \$13.6 million for the first nine months of 2013. Products and licensing revenues improved 20%, to \$6.1 million, for the first nine months of 2014, compared to \$5.1 million in the first nine months of 2013. Technology development revenues increased 5%, to \$9.0 million, for the first nine months of 2014 compared to \$8.6 million in the first nine months of 2013. Loss from continuing operations before income taxes for the first nine months of 2014 improved \$1.6 million, or 30%, to \$3.6 million, compared to \$5.2 million for the first nine months of 2013. After considering income from discontinued operations, which included the gain on sale of the company's medical shape sensing business in January 2014 and included the gain on sale of the company's secure computing assets in addition to the operating contribution of the medical shape sensing business in March 2013, net income attributable to common stockholders improved to \$6.8 million, or \$0.40 per diluted common share, for the first nine months of 2014 compared to \$1.1 million, or \$0.07, per diluted common share for the first nine months of 2013.

The company ended the third quarter of 2014 with \$14.4 million of cash compared to \$7.8 million of cash at the end of 2013 and \$14.7 million of cash at June 30, 2014.

"I am very pleased with the improvements we saw in our operating results for the third quarter," said My Chung, president and chief executive officer. "Our strategic focus for growth continues to be in the area of fiber optic sensing, and executing on that initiative resulted in significant top line growth and improved results from continuing operations. We have recently rolled out an enhanced ODiSI product for sensing, and we remain excited by the growth potential that sensing continues to hold for Luna."
